

July 2019 NHOA Newsletter

Hi Neighbors,

This has been an unusual spring and early summer. The rain has caused many issues with trying to mow, weed, and trim the lawns and beds. Thank you for your patience. I also want to thank you all for lowering your speed on our community streets. It really does make them safer.

If you see something that you feel needs attention in the community, please let Mac at Lawrence Management know and he will take the proper steps to answer your questions. Please do not ask the workers to do something extra around your homes. Let Mac know and he will get it taken care of if possible.

The pool is really refreshing. I hope you will take time to enjoy it.

From the Board

The Board made a request to the city of North Ridgeville to check Slater Creek to see if it needs to be cleaned out. The city's Service Department will look at the creek and make an assessment.

In order to ensure proper drainage, the city is planning on cleaning out the ditch along Mills Road on our border sometime this year. The city indicated that they do not plan to remove any of the foliage along Mills Road. However, due to the large equipment that is used, some foliage may need to be removed.

Did You Know?

The pool is open and the weather has finally started to cooperate! Please take a few minutes to review the rules that are posted. We want to ensure the safety of everyone who uses the pool. Please remember that:

- All guests need to be accompanied by a resident,
- No food is allowed inside the pool area, and
- The last person to leave the pool needs to put the alligator back in the pool and ensure that both of the gates are locked.

Thank You

Thank you to Jack Hall for working with the irrigation company. The system has been tested and Jack is working with the company to fix the issues that were identified.
